

NOTES: UNLESS OTHERWISE SPECIFIED

- Assemble and inspect per IPC-A-610 (current revision) CLASS 2.
- This assembly drawing shows all component locations for all board stuff options. Refer to the specific BOM for assembly specific components.
- Final assembly shall be compliant with RoHS directive 2011/65/EU and California Proposition 65.
- Board edge to be deburred and free of sharp edges.
- Boards must be clean and free of flux. Wash with aqueous based solution or equivalent if necessary.
- Packaging:
  - Individual PCBAs must be individually packed in ANSI/ESD S20.20 compliant bags.
  - Individually packed FPCAs must also include a rigid backer in the bag.
  - Trays of PCBAs shall be delivered packed in ANSI/ESD S20.20 compliant materials and marked with cautionary ESD labeling.
- Pins P1-P10 are Press-Fit Pins
